Discovery Kindergarten Program 2013—2014

Oak Park Unified School District
5801 E. Conifer Street
Oak Park, California
www.oakparkusd.org

The Program: This program was implemented in the fall of 2009. It is open to children who turn 5 between July 1 and December 2 in the school year. Discovery Kindergarten will expose students to a modified Kindergarten curriculum that is age and developmentally appropriate. At the conclusion of the year, students will enter a traditional Kindergarten program. Students will have the opportunity to learn and practice important social and commu-

nication skills. They will have a chance to learn and express themselves at a pace that is not quite so hurried.

- ◆ The Discovery Program will be located at our Red Oak Elementary School and Brookside Elementary School sites.
- ◆ The program will be developmental and hands-on so that students can grow at their own pace.

- ◆ The children will receive progress reports three times a year.

The Community and School District: The Oak Park Unified School District is located in a suburban community of eastern Ventura County adjacent to

Los Angeles County. The district was formed in 1978 and currently serves approximately 4500 students in grades K-12. The District supports a collaborative style of leadership and promotes the involvement of staff, parents and students in the educational process. The administrative, teaching and classified staff are highly committed and well trained in the current research and practice of teaching and learning.

The Oak Park Unified School District operates eight schools including three K-5 elementary schools, one 6-8 middle school, one 9-12 comprehensive high school, one 10-12 continuation high school, one K-12 Independent Study School and one Reggio Emilia based Preschool. All of our schools have received multiple state and national recognitions including CA Distinguished, National Blue Ribbon, Golden Bell Honoree, CA League of Middle Schools "Schools to Watch" and Standard and Poor's top 29 Outperforming Districts to name a few.

We believe that the reason for our success is due to the fact that we as an organization have made a commitment to our students to meet their academic needs every day and to provide an appropriate level of learning through challenge, depth, complexity and novelty. Our teachers high degree of attention to providing our students with an engaging, differentiated and meaningful curriculum is at the core of our vision.

Frequently Asked Questions:

- ◆ What standards are taught in Discovery Kindergarten? Students are presented with a modified Kindergarten curriculum that is age and developmentally appropriate.
- ◆ What special classes will my child attend? Your child will have weekly Art, Music, Physical Education and Computer classes, as well as a weekly visit to our library.
- ◆ Will my child be going on field trips? Yes ~ Age-appropriate field trips that coincide with the curriculum will be planned during the school year.
- ◆ Will child care be available? Yes~ Please contact the school office.

- ◆ Will my child have to move campuses after completing the Discovery Program? ~ Students will be assigned to their neighborhood school in Oak Park for traditional Kindergarten. However, if a family would like their child(ren) to remain at ROES or BES, they may complete an Intra-district Attendance Permit Form, if they are assigned to a different campus. The forms are available in the school offices.
- ◆ Is this a tuition-based program? No, there is no tuition.
