

CAFETERIA NEWS!

Dear Parents,

The cafeteria will be using a new POS (point of sale) system to check out all students when purchasing food. We will no longer be using tickets, although tickets from last school year will still be accepted for nutrition and lunch until 9/30/2011. Any remaining tickets need to be turned into the cafeteria and the ticket value will be credited to your students account.

Students **must** use their student id to purchase any food in the cafeteria, snack bar, café, or cart. We will have the ability to scan, swipe or input their id numbers. This is for all transactions, including cash-**no exceptions**. The parents and students will still pay by check or cash and the lunch prices remain the same. All payments will be attached to the student's id number. I recommend that the students memorize their student id number to help expedite the process.

Thank You,

Julie Suarez

Child Nutrition Director
