

BROOKSIDE'S LUNCHTIME ENRICHMENT PROGRAM

The Brookside Elementary PTA is proud to sponsor Lunchtime Enrichment on Tuesdays, Thursdays and Fridays at Brookside! These enrichment programs serve to enhance our students' interests outside of the classroom and promote our district's mission statement of educating compassionate and creative global citizens by fostering collaboration, creativity, ingenuity, and character development.

Programs are run on a drop-in basis and student participation is contingent upon following behavior guidelines outlined in the Brookside Elementary Handbook. Note: LEGO materials must remain at Brookside; students may not take those building materials home. Please remind your students of behavior expectations and good citizenship. Thank you!

TUESDAYS

CReATE Studio Art at Brookside:

Brookside PTA has partnered with CReATE Studio in Westlake and their campus outreach, CreAte on Your Campus, to bring students the opportunity to exercise their creativity using recycled materials to create! Under the direction of a Brookside staff member, students can drop in and "revel in our fun and funky DIY art area geared towards creative exploration through open-ended art". Enjoy creating with a wide array of recycled, artistic and crafty materials!

"B" is for Board Games:

Make new friends, practice strategy, patience, sportsmanship and organizational skills all while having fun! On Tuesdays and Fridays, students have the option to challenge new and old friends to various board games in the quad.

THURSDAYS

Playground Games:

The Brookside PTA funds this popular program run by experienced coaches from Growing Outdoors to promote fitness and team-building through team play. Activities build strong hand/eye coordination, increase gross motor skill development, teach strategic thinking, and promote collaboration. All students participate in AMAZING and FUN games each week to get moving and work together!

FRIDAYS

LEGO Buildzone:

Students love the projects they build each week using different LEGO bricks and elements under the direction of a Brookside staff member. Our BuildZone promotes teamwork, cooperation, patience, and problem solving skills.

"B" is for Board Games:

Make new friends, practice strategy, patience, sportsmanship and organizational skills all while having fun! On Tuesdays and Fridays, students have the option to challenge new and old friends to various board games in the quad.
