

A Student's Guide To...

Naviance | Student

Naviance is a web-based portfolio that helps students plan and organize their high school career. Naviance helps keep track of the college application process and helps students match potential career paths to their strengths and interests. Naviance creates a culture that prioritizes empowering students to stay engaged in their college and career planning and accomplishing their future goals.

Overview of Naviance Assessments

Do What You Are: Helps you discover which one of 16 personality types is most like you. Personality type and career interest survey results reveal which careers and college majors offer the likelihood of success.

Learning Styles Inventory: Diagnoses your unique learning styles based on an analysis of your personal preferences in 16 different areas.

Strengths Explorer: Assesses 10 talent themes for individuals and identifies each student's three strongest emerging talents. Recommend taking Junior year (can only take one time – no reset available).

Career Cluster Finder: Helps you discover career clusters that are most interesting to you. Once you complete the Career Cluster Finder, top matching career clusters can be reviewed.

Career Interest Profiler: Results will display your top Holland Code matches. There are questions for each Holland code: Realistic, Investigative, Artistic, Social, Enterprising, and Conventional.
