

Professional Tutors (revised March, 2019)

The College & Career Center periodically receives flyers from individuals who are promoting their tutoring services. This is a list of flyers we have received in the Center. Oak Park High School has no knowledge of the quality of the services provide by either the company or the individual. A majority of these tutors are not affiliated with Oak Park High School or the Oak Park Unified School District. Moreover, none of these companies or individuals receive our endorsement; their contact information is provided for your convenience only. If you chose to privately employ one of the tutors on this list, you do so at your own discretion.
