How to Connect Your Smartboard

1. Plug your laptop into **POWER**

2. Plug the **VGA CABLE** from the Smartboard into the **DONGLE** and the **DONGLE** into the laptop.

3. Plug the **USB CABLE** from your SMART Speakers (or Smartboard if you have a Unifi 35) into the **USB PORT** on your laptop.

    If you are using a **USB HUB**, you will plug into the **HUB** and then plug the **USB CABLE** from the HUB into the laptop. Be certain to plug the **HUB** into **POWER**.
    If you have touch control issues- plug the Smartboard USB directly into the laptop.

4. Turn on your Smartboard and be certain that **MIRRORING** is **ON** (Click on the **DISPLAY ICON** in the **MENU BAR.**

Power Cable- Always plug in power block when running Smartboard

Display- Dongle goes here

USB- USB Cable from Smartboard

Audio Out-Audio Cable

If you have a Unifi 35 Projector- you will also need to plug in your audio cable.

VGA from SMARTBOARD
