## District Technology Plan

The Governing Board recognizes that technology resources can enhance student achievement by increasing student access to information, supporting teacher effectiveness, becoming integral to the learning process, and facilitating the administration of student assessments. Effective use of technology can also increase efficiency of the district's non-instructional operations and governance.

The Superintendent or designee shall develop, for Board approval, a comprehensive three-year technology plan based on both an assessment of current uses of technology in the district and identification of future needs. The Superintendent or designee may appoint an advisory committee consisting of a variety of staff and community stakeholders to assist with the development of the technology plan.

*(cf. 0400 – Comprehensive Plans)*

*(cf. 1220 – Citizen Advisory Committees)*

*(cf. 9140 – Board Representatives)*

The plan shall be integrated into the district's vision and goals for student learning and shall contain research-based strategies and methods for the effective use of technology. When required for state or federal grant programs in which the district participates, the plan shall also address all components required for receipt of such grants.

*(cf. 0000 – Vision)*

*(cf. 0200 – Goals for the School District)*
