Tutoring and Counseling

No staff engaged in a business activity may contract with their own students for their specific service nor solicit students for a business activity.

The Governing Board expects teachers and other members of the instructional staff to make every effort to resolve students' learning problems at school before recommending that parents/guardians engage a tutor or other professional help. By maintaining a competent, dedicated staff and adequate instructional resources, the Board seeks to minimize the need for individual tutoring.

Certificated employees may provide tutoring services to students from their work location who are enrolled in other classes or courses at the secondary level and other grade levels at the elementary level or to students enrolled at other schools in the District.
