

# Kami Document

1. Download the pdf file.
2. Click on **K** on Chrome extension.
3. Open the document and start working. Make sure you make a copy first before annotation.

Click on the **Save** icon and choose **Advanced Export**

4. Choose either one.
5. Make sure the middle box is highlighted.
6. Rename: ex Page 1

7. Choose the 3rd option and enter 1 if you want to turn in **ONLY** that page, otherwise choose All Pages.
8. Go to Google Classroom, look for the file you have just save, attach, and turn in.
