Edit and format your document

There are many ways to edit your document with the edit toolbar.

File Edit	View	Insert Format Tools	Table Help	
	* 7	Normal text 🕞 Arial	· II · B I U A · M · CO ■ ■ ■ ■ □ □ □ ■ ■ □ □ ■ □ ■ □ □ ■ ■ □ □ ■ □ □ ■ □	2

You could stick to entering plain text, but why? Take advantage of the full range of features in Google Docs to make your documents stand out from the rest.

Here are some ideas to get you started:

Insert images

1. Click **Insert > Image**.

2. Choose an image and click **Select**. You can upload an image from your computer, choose one from Drive or your photos, find one on the web, or even take a new snapshot. Once your image is added, you can remove or resize it at any time.

To remove an image, select it, right-click (or click **Edit**), and choose **Cut**:

To resize an image, select it and then pull one selection handle. Use a corner handle to proportionally resize in all dimensions:

Use a top, bottom, or side handle to resize in only one dimension:

Add a table

Tables are a great way to organize information in your document.

1. Click **Table > Insert table** and point at the number of rows and columns you want:

Table Help All change	s saved in Drive
Insert table	<u>A</u> -
Insert row above	5
Insert row below	•
Insert column left	2 x 4
Insert column right	

2. Then format and fill out your table:

Project Member	Role
Ted Wallace	Team Lead
Ashley Smith	Project Coordinator
Sam Sterling	Sout

To add color to cells (like the top row above), select the text in one or more cells, click **Table** > **Table properties**, and then set the cell background color.

Add a link

It's super easy to add links in Google Docs.

1. Select the text (or an image) where you want the link.

Suggest edits

You can suggest edits to the owner of the document without affecting the original text. Your suggestions won't change the original text until the document owner approves them.

To suggest changes to a document:

1. In the top-right corner, make sure you are in **Suggesting** mode:

	Suggesting	•
1	Editing Edit document directly	
P	Suggesting Edits become suggestions	

Note: If you don't see this option in the top right, you have view-only access to the document and should request access from the owner to suggest edits.

2. To suggest an edit to existing text, highlight the text you want to change and type the suggested edit. To suggest adding new text, just type the new text. Your suggestions will appear in a new color and any text you suggest to delete or replace will be crossed out.
