# Schoolwires Premium Video App

© 2014 Schoolwires, Inc.

# Work Smarter. Not Harder.

- ★ Post videos directly to your website for...
  - Virtual field trips
  - Flipped instruction
  - Recorded classroom lectures or labs
- ★ Less hoops to jump through
  - Can upload videos directly to Schoolwires without using Web 2.0

### Overview:

Upload videos directly to Schoolwires without jumping through hoops with Web 2.0. Visitors to your website can watch your videos instantly without having to wait for them to download or navigate to third party sites to view them. You can set a display duration for a video and indicate a time frame when it is available to watch.

# Premium Video App Best Practice Guideline:

Primarily, this tool is prioritized for the uploading of instructional/educational videos. Such videos can remain on the site indefinitely, if needed. Videos that may be categorized differently (e.g., sports footage) are to be deleted from the site after no more than 30 days. Please ensure a timely removal by setting a calendar reminder to do so. If this guideline is inconvenient, we may explore creating a YouTube channel as an alternative.

# Step-By-Step

### Add a page to your workspace:

- 1. Log into your Schoolwires account and go to Site Manager
- 2. In **Site Manager**, navigate to the workspace to which you wish to add a Premium Video App.
- 3. Click **New Page**
- 4. Click Blank Page
- 5. Enter a name for the page. This is the name that users see when navigating the site.
- 6. Click **Save**. You are returned to the workspace.

Add a Premium Video App to a page:
